TO WHOMSOEVER IT MAY CONCERN

This is to certify that Indian Petrochemicals Corporation Limited (Gandhar Complex) has awarded a contract for two years for Security and Fire Protection Services to Bombay Intelligence Security (India) Pvt Ltd., Ghatkopar (W), Bombay-400 086. Their selection was done out of 21 security agencies after scrutinising their capability, organisation structure, past experience and references. Even before award of this job, they were engaged in providing security services to IPCL township as well as some part of the Nagothane Complex of IPCL. Since IPCL's Gandhar Complex is presently in the stage of construction, it is difficult to evaluate the efficiency of their services at this stage. However, in our opinion, management of security services during the construction phase when thousands of persons work at the site should be more difficult than managing running complex where only a limited number of regular employees and vehicles enter. Similarly, since our Complex has not gone into production, we have not had any opportunity to test their capability in fire fighting services to be provided by them. Nonetheless, they have deployed the right kind of manpower both for security and fire fighting services. Uptill now, their services are satisfactory and we have no complaint so far.
